

Assembly Instructions Roller Banner **ERB1000/ERB800/ERB850**

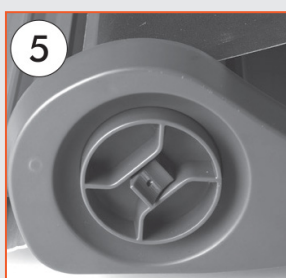

1. Print installation

Turn the feet 90 degrees as in photo, then open the cover profiles of the base and take out clips profile & telescopic pipe.

Open the clamp profile on the cylinder and place in the poster.

Open the button of the mechanism & loosen the rolling cylinder body.

Open the clamp profile on the cylinder and place in the poster.

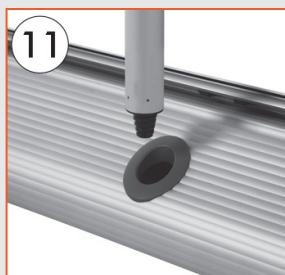

Close the button of the mechanism on one side of the body and wind up the mechanism turning around the cylinder.

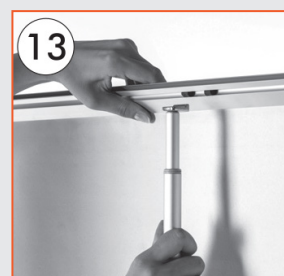

2. Assembly after print installation

Close the main body cover. Open the telescopic pipe and embed it to the hole on the body.

Lift up the top clamp and hang it on the pipe.

CAUTION!

Please do not loosen the mechanism when the printing is assembled on the top position.
