FAB1 INSTALLATION GUIDE

Step by Step guidance on fitting your FAB1 tension banner in to its frame

1.

Assemble your frame.

Lie your frame on a flat surface and lay banner on top (see picture right).

2.

Fold the material over the plastic strip on the long edge of the banner.

3.

Slot the folded material in to the channel.

4.

Repeat folding on the top edges and slot in to place.

5.

Repeat on all edges until the banner is tight in the centre.
