

Included:

- 1 x Gridwall Panel

- 4 x Wall Mounting Brackets

- Gridwall Components
(dependant on kit purchased)

How to apply

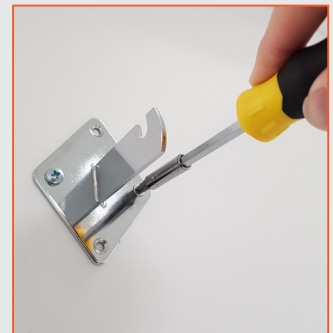

1.

Mark out the fixing points on the wall for the two upper brackets so that they are of equal distance from the centre of the gridwall.

2.

Fix the two upper brackets to the wall with screws.

3.

Hang the gridwall panel from the upper brackets as appropriate to your application.

4.

Mark out the fixing points on the wall for the lower brackets by positioning them vertically in-line with the upper brackets, in the lower region of the panel (as appropriate to your application). Ensure the rod is seated in the hook part of the bracket.

5.

Fix the two lower brackets to the wall with screws.

6.

Gridwall hooks and accessories can now be fitted to the display.
